..AND .. TAYLOR'S PATENT HAY TEDDER. HE OHIO MOWING MACHINE,

IN calling the attention of farmers and breeders of stock to this article, little need be said as to the value as food for cattle, sheep, &c. It has long been used in lingland, and of late it has attracted the attention of feeders in this country. More than twenty years ago it was estimated that over 75,00 tons were annually imported into England, in addition to the large amount produced in Great Britain and her dependencies. o her machine cutting the same width, very simple in construction, and can be easily managed by any boy who can drive a pair of horses.

The Double Jointed Folding Cutter Bar, the Holling Motion of the Guard Points, and the Position of the Mar,—distinctive features of this machine,—admit of doing good work where ordinary mowing machines could not be used. The fact that Oil Cake is used largely by all breeders of fine stock in England should be understood by our armners who are willing to pay the enormous prices demanded for "blooded" cattle, and we set manufacture.

The fact that Oil Cake is used largely by all breeders of fine stock in England should be understood by our armners who are willing to pay the enormous prices demanded for "blooded" cattle, and we think it would be well to inquire whether their superiority is not the result of "feed" as well as of "blood," There is nothing equal to Linseed to and make.

A Sure Cure for Catarrh.

DEMERITTS

North American Catarrh Remedy.

CAMBRIDGEFORT, Mass, June 26 is D. J. DEMERITT. Dear Sir: This is to certify have been afflicaed with that loathsome distarth, in its worst forms for nine years. I any kinds of remedies, but did not receive

more relief by one application than all-others that I have ever used, less than one package has entirely cured me. I heartily recommend it to all who may be afflicted with Catarrh. DANIEL STONE, Proprietor Union House,

CHARLESTOWN, Mass., 1867.
D. J. DEMERITT. Dear Sir: I cannot retrain from expression of the greatest gratitude to you; in seed I have no lenguage to express the great bene t I have received from your North American Remarks. For ten years I was afflicted with chronicatarrh, gradually growing worse, until I had most become a burden to unyelf and those around s. I was induced by a friend to try your remedy; have used not quite one backare, and to my are the production of the pro
